

ACTUAL SPEND 2018/19 Record of PE and Sports Premium spending by item/project
Allocated: £17,350

Item/project	Cost (Actual)	Objective	Outcome
Yoga instructor to support CPD and child learning	£2,520	To upskill staff with gymnastic technique for children with PMLD and calming techniques across school.	All classes have accessed a coach this academic year, even if it has been for a taster session to introduce the children to the skills. Staff in the school have fed back that this is a very applicable club for the children as it supports with body awareness, sensory and movement.
Transport to events	£2000	To give children opportunity to compete in a range of events.	The cost of transport has facilitated the children in being able to attend and access a wide range of competitions, clubs and sporting experiences that have supported them in developing sporting awareness, team building skills and independence.
Equipment to support accessibility and sustainability	£1011.58	To give children opportunity to access a wider range of sports To support the healthy lifestyle initiative within school	Children have been able to access a variety of sports within PE curriculum due to the purchase of adapted and applicable equipment that has enhanced PE provision. Equipment has created more opportunities with regards to accessibility and sustainability and staff now feel more confident with providing a wider range of experience in PE lessons.
Trampoline and rebound therapy training	£4,408.20	To promote the use of rebound therapy for the children To support daily exercise and sensory integration for the children	Children on Rievaulx site now have a trampoline and staff are trained to deliver rebound therapy as part of the PE curriculum to support physical development and sensory integration.
W.A.R. staff CPD sessions	£1036	To upskill staff with specialist coaches	Coaches have showed staff a variety of games and activities to perform with children in line with the PE curriculum as part of our CPD training. A survey conducted has shown

			that staff now feel more confident with their adapted approach to PE lessons.
Cricket coaching with Ron Young from Durham Cricket club	£200	To provide opportunities for children to compete against other schools. To enable CPD for staff	Children have had the opportunity to compete in two competitions, one based on table cricket and one kwick cricket with other schools which has been beneficial. The input of this club has supported staff to develop awareness of the sports and children have received weekly sessions.
Stockton Schools Sport Partnership	£867.50	To allow access to a wider school network enhancing CPD, games and competitions	This is a strong link in which has created club links and given the children various competition and event opportunities. Staff have taken part in various CPD opportunities and classes have ben to competitions against other schools. We also hosted a training session at our academy with their support. Children to learn the importance and benefits of competition Opportunities to create sporting links with other schools
Cover for staff CPD opportunities.	£970	To upskill staff in different sporting areas.	Multiple staff have had the opportunity to attend training events with regards to PE in support of curriculum development. There was also training held this year in support of our NQT teacher. This cover budget has also supported the Academy when additional staff have been needed to support outings and events that are PE and competition based.
Riding for Disabled association	£1,395 £700 transport	To allow children to take place in sports previously unavailable to them	Children accessed horse riding to develop their fundamental skills in a range of different classes. This has supported with physical development, sensory integration, independence and confidence through a sport that we are unable to offer within school.

Forest school leader and accreditation	£2209.99	To build resilience in children To support independence and an awareness of danger To encourage a higher percentage of outdoor education	In order to develop the outdoor side to our PE curriculum, A staff member is currently completing their training to be Level 3 qualified. Alongside this, specialist equipment has been purchased to support this project and allow our SEND children to access this now element to our PE and outdoor curriculum which will start in March 2020.
PE lead development and CPD facilitation	£628.50	To allow staff member time to develop PE within the academy To build stronger trust wide links between other academies in Sport	This budget spend has allowed the PE coordinator to attend courses and networking meetings to develop clear links with other academies and clubs. It has been used to support the Lead in developing curriculum and opportunities for the children within the academy.
Seaside week movement	£172.43	To give more opportunities for sporting in different contexts To develop new club links and physical skills for the children	The children were able to access circus skill movement sessions which integrated PE into an experiential week within school. The session aim was to show that physical activity comes in many forms and it introduced a fun/informal approach to fitness.
Health awareness week	£366.30	To promote healthy eating and living in school To promote physical activity in school	Health week was set up to have a clear focus for PE and development within school. It was a week in which we could focus on the children who are below expected progress and need additional support with physical activity. The week promoted the importance of keeping fit and healthy.
