

Dear families,

As part of our continual approach to school improvement, we invited a team of three colleagues into school to complete a Challenge Partners Peer Review. The team consisted of a lead reviewer, a deputy headteacher from a special school in Norfolk and a deputy headteacher from a special school in London. The team spent three days in school in April and they gave us some excellent feedback about our school, the learning that students experience, leadership at all levels and of course our wonderful students. We are delighted that they described us as 'Leading' in each category.

A copy of the report is on our website for you to read.

Your sincerely

*Rachel Hargreaves*
